Math Strategies Room 25
Mrs. Torrez

Purpose:

This class will cover basic math skills needed for real world applications. Students will be in the same class as the Pre-Algebra class, but additional activities will be provided to meet their unique needs.

Homework : Homework is extra practice to master skills that have been taught but are weak. Students will need on-line access for this. If they do not have access other arrangements will be made.

Daily Work: Students will participate in any whole class activities with the Pre-Algebra math class, and usually participate in small group practice. Students will be given opportunities as leaders on skills that they are understanding to help promote leadership skills and to also promote mastery of these concepts.

Projects: Students will be given a real work math activity/project each quarter. Once the project is assigned students will have 2-3 weeks to complete. The information will go home via e-mail and also a rubric sheet that they will need to return signed for a portion of their grade. Any student that does not turn it in on time will come in at lunch daily to work on the assignment until it is completed.
