Tests

School Grading draws on student performance from these state assessments:

Grades

PARCC	Partnership for Assessment of Readiness for College and Careers	Mathematics, Reading	3-11
SBA	Standards Based Assessment - Spanish	Reading	3-11
NMAPA	New Mexico Alternate Performance Assessment	Mathematics, Reading	3-11
DIBELS	Dynamic Indicators of Basic Early Literacy Skills (prior to 2017)	Early Literacy	KN-2
IStation	IStation (beginning 2017)	Early Literacy	KN-2

Details of Each Grade Indicator

Current Standing

Knowing how many students are proficient is a measure of the school's overall success. Current Standing uses up to three years of student performance to provide a broader picture of school achievement. Current Standing also includes a measure of student growth (Value-Added Modeling) that looks at school size, student mobility, and prior student performance.

		All Students	Gender		Race / Ethnicity					Econ Disadv	Students with Disabilities	English Language Learners
			F	M	White	Afr Amer	Hisp	Asian	Am Indian			
<i>Reading</i>	Proficient (%)	47	50	41	53	27	45	-	-	40	10	-
	Points Proficiency	4.74										
	Points Student Growth	3.64										
<i>Math</i>	Proficient (%)	28	30	23	34	27	23	-	-	23	≤ 5	-
	Points Proficiency	2.79										
	Points Student Growth	4.29										

Proficiencies Over Time

Students are performing on grade level with Proficient or Advanced scores.

School Improvement

School growth (Value-Added Modeling) compares overall student performance from year to year and considers the progress of all students whether or not they are proficient.

	Reading	Math
Growth Index	0.58	0.94
Points	3.59	4.13

Growth can be negative or positive. When it is positive, the school performed better than was expected when compared to other schools with the same size, mobility, and prior student performance.

Student Growth

Every student's prior test scores are used to estimate how they should have performed this year. Their academic growth is considered within two groups, the lowest-performing 25% of students and the higher-performing students (75%).

Above Zero

This group performed higher than expected.

Near Zero

This group performed as expected based on their academic history.

Below Zero

This group performed below expectations, and students are falling behind when compared to their peers.

College and Career Readiness (CCR)

High school students are expected to participate in at least one college or career readiness program:

- 1) College entrance exams (Accuplacer, ACT, ACT Aspire, Compass, PLAN, PSAT, SAT, or SAT Subject Test)
- 2) Evidence that the student can pass a college-level course (Advanced Placement, Dual Credit, or IB)
- 3) Eligibility for an industry-recognized certification (Career Technical Education)

Points are given separately for students' participation and for their success in achieving targets.

Schools can earn points for reducing truancy, promoting extracurricular activities, engaging families, and using technology.

- ☒ Student and Parent Engagement
 ☐ Truancy Improvement
☐ Extracurricular Activities
 ☒ Using Technology

Participation

All enrolled students must take the yearly state tests. If a school tests less than 95% of their students, the school's letter grade is reduced by one grade.

Reading (%)	100
Math (%)	100

Notes

School grading calculations and procedures are described fully in the School Grading Technical Guide posted on the PED's website at <http://aae.ped.state.nm.us/SchoolGradingLinks/1718/Technical Assistance for Educators/Technical Guide 2018.pdf>. This guide provides definitions and decision rules for each indicator, including growth. In addition, the guide details how the state benchmark of C was established.

For Student Growth, separate procedures are used for the school overall and for the student groups. Therefore, the values for student groups will not sum to the total shown under school overall.

For high schools that do not have members of 4-year, 5-year, or 6-year graduation cohorts, the scale is abbreviated, and letter grades are adjusted to account for the school's remaining non-cohort indicators.

A dash is used to protect student confidentiality as required by state and federal law when there are fewer than 10 students in a group.

Schools that administered tests by computer received bonus points based on the number of students participating.
